

**Vacancies under the General Employment Policy (GEP)  
and Admission Scheme for Mainland Talents and Professionals (ASMTP)  
that qualify for exemption from Market Availability Test**

Guidance Note

**General Criteria**

1. Vacancies must be filled by candidates with at least degree qualification. There may be professional qualifications and/or other additional requirements for specific categories. Please refer to the relevant sections in this Guidance Note for details.
2. Vacancies should be at supervisory, managerial or professional levels which are filled by candidates with relevant experience. Vacancies filled by fresh graduates are generally not qualified.
3. The remuneration package of the vacancies should be broadly commensurate with the prevailing market level for the concerned jobs. Jobs with monthly salary<sup>1</sup> below HK\$30,000 are generally not qualified.
4. This Guidance Note sets out the typical job descriptions and duties of qualified vacancies in each category. If any vacancies fall outside these employment fields, the employers will be required to provide additional information to justify why they need to fill such vacancies in their business holdings for Director of Immigration to consider whether the relevant applications qualify for exemption from the Market Availability Test.

---

<sup>1</sup> Salary covering the whole remuneration package which may include other fringe benefits such as housing allowance.

## Specific Criteria

Qualified Vacancies	
<b>Industry Segment: Business Support</b>	
1.	<p><b><u>Professionals in environmental, social and governance (ESG) (other than financial professionals)</u></b></p> <p><u>Descriptions</u>  <b>Positions in companies across all industries, including but not limited to manufacturing, property development, public utility, hotel and other services, which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) setting ESG policies, strategies, including a very important lens on diversity, equity, and inclusion (DE&amp;I) /social topics; and</li> <li>(ii) responsible for ESG activities in all industries, e.g. manufacturing, property development, public utility, hotel and other service industries, of the following scope: <ul style="list-style-type: none"> <li>● ESG standard setting, performance verification/certification</li> <li>● ESG project management and implementation</li> <li>● ESG training</li> <li>● ESG risk management (e.g. green washing).</li> </ul> </li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in environmental science / management, sustainability, commerce, business administration, economics, accounting, law, environmental studies or other relevant disciplines and received on-the-job training or industry courses or programmes; and</li> <li>➤ at least 3 years of relevant working experience in ESG.</li> </ul>
<b>Industry Segment: Creative Industries, Arts and Culture, Performing Arts</b>	
2.	<p><b><u>Arts promoters</u></b></p> <p><u>Descriptions</u></p>

	Qualified Vacancies
	<p><b>Positions in arts administration or artist management companies which are responsible for the following duties:</b></p> <p><b><i>Forming Collaborations</i></b></p> <ul style="list-style-type: none"> <li>(i) negotiating pricing and contract terms with presenters, agents, managers, other artists, record labels, production companies and other industry professionals;</li> <li>(ii) networking with agents and managers to build relationships and share information on who may be a good fit for each other's artists for collaboration;</li> </ul> <p><b><i>Image Building and Marketing</i></b></p> <ul style="list-style-type: none"> <li>(iii) overseeing the artist's public image in order to project the desired image to the audience;</li> <li>(iv) launching marketing campaigns that promote upcoming activities of the artists, and managing social media accounts to promote artists and events to their target audience;</li> </ul> <p><b><i>Event Management</i></b></p> <ul style="list-style-type: none"> <li>(v) negotiating pricing and contract terms with venues;</li> <li>(vi) coordinating with venue staff;</li> </ul> <p><b><i>General Administration</i></b></p> <ul style="list-style-type: none"> <li>(vii) managing the budget for each activity of the artists; and</li> <li>(viii) reviewing contracts for legal compliance and negotiate modifications where necessary.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ a degree or post-graduate degree in the performing arts, arts administrations/ cultural management or business;</li> <li>➤ over 5 years of relevant practical experience in the discipline of arts administration or artist management;</li> <li>➤ demonstrated achievements in artist management, networking profile, marketing and event management skills;</li> <li>➤ familiarity with the international scene of the performing arts; and</li> <li>➤ proficient in Chinese or English, verbal and written.</li> </ul>

3.	<p><b><u>Conservators for movable cultural heritage</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in museums, libraries, archives or antique dealers which are responsible for the following duties:</b></p> <p><b><i>Conservation Treatments</i></b></p> <ul style="list-style-type: none"> <li>(i) examining collections and identifying treatment needs;</li> <li>(ii) formulating treatment proposals, conducting treatments and monitoring after treatments;</li> </ul> <p><b><i>Exhibitions and Loans</i></b></p> <ul style="list-style-type: none"> <li>(iii) conducting tests on materials for exhibitions, advising on climatic environment and handling of artefacts;</li> <li>(iv) conducting conservation treatments required for exhibitions ;monitoring and preserving the condition of the artefacts;</li> </ul> <p><b><i>Storage and Preservation</i></b></p> <ul style="list-style-type: none"> <li>(v) establishing and implementing conservation guidelines and standards of practice based on current ethics and principles to ensure a holistic approach to collection care;</li> <li>(vi) providing advice on collection display methods and maintenance of collections storage facilities;</li> </ul> <p><b><i>Research and Analysis</i></b></p> <ul style="list-style-type: none"> <li>(vii) enhancing collection knowledge and significance through conservation research; and</li> <li>(viii) conducting and publishing research on conservation issues related to preservation of collections, treatments and technical understanding etc.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ a degree or post-graduate degree in Conservation from an internationally-recognised conservation training programme;</li> <li>➤ 3-5 years of relevant practical experience in conservation of relevant conservation disciplines;</li> <li>➤ demonstrated achievements in conservation treatments, preservation techniques, researches and analytical instrumentation skills;</li> <li>➤ familiarity and experience in handling cultural materials and demonstrate</li> </ul>
----	---

	<p>relevance in making sound judgements in applying conservation principles and practices; and</p> <p>➤ proficient in Chinese or English, verbal and written.</p>
4.	<p><b><u>Creative industries professionals in publishing</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in publishing companies which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) being e-Publishing web/UI designer with expertise in new Mobile Application User Interface (UI)/ User Experience (UX) visual development in e-Publishing;</li> <li>(ii) being e-Publishing analysis programmer with expertise in developing e-Learning platforms or e-Learning tools that facilitate the teaching and learning in primary and/or secondary schools;</li> <li>(iii) being e-Publishing programmer with expertise in developing e-Learning platforms or e-Learning tools that facilitate the teaching and learning in primary and/or secondary schools; or</li> <li>(iv) being publishing manager with expertise in developing and implementing publishing projects, marketing and promotion of publications (in particular e-Publications), and negotiating copyright trading.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ e-Publishing web/UI designer holds a Bachelor’s Degree or above in Web / Multimedia Design, Library Studies, Library Information Science, Data Analytics or relevant disciplines, with three (3) to five (5) years of solid working experience in e-Learning or digital publishing and across multiple platforms (mobile, web, desktop, etc.), and familiar with e-Book or e-Textbook publishing processes.</li> <li>➤ e-Publishing analysis programmer holds a Bachelor’s Degree or above in Computer Studies, Information Technology (IT), Library Studies, Library Information Science, Data Analytics or related disciplines, with at least eight (8) years of solid software development related experience, and worked in the publishing / e-Learning / digital publishing industry, with experience in the development of e-Learning platforms or e-Learning tools.</li> <li>➤ <b>e-Publishing programmer</b> holds a Bachelor’s Degree or above in</li> </ul>

	<p>Computer Studies, Information Technology (IT), Library Studies, Library Information Science, Data Analytics or related disciplines, with at least five (5) years of solid software development related experience, and worked in the publishing / e-Learning / digital publishing industry, with experience in the development of e-Learning platforms or e-Learning tools.</p> <p>➤ Publishing manager holds a Bachelor's Degree or above (preferably majoring in Publishing, Mathematics, Science, Library Studies, Library Information Science or Data Analytics), with eight (8) years or above of editorial experience (preferably in e-Publishing), independent ability to explore and develop new publishing projects and capability to lead the team to complete publishing and other relevant projects, abundant experience in promotion of publications and international copyright trading, with sound understanding of publishing in other markets.</p>
5.	<p><b><u>Digital marketing and branding specialists</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in companies across all industries which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) creating digital assets for multimedia and graphics projects, including websites, mobile apps, advertising, animation, emails, social media, video games, and interactive displays; or</li> <li>(ii) creating and managing the company's visual brand identity, developing marketing materials, such as logos, brochures, website designs, and advertising campaigns, coordinating with other departments within the company to ensure that all branding and marketing initiatives are aligned and monitoring industry trends to stay up-to-date on the latest design techniques and styles.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ a bachelor's degree in arts and communications and marketing and digitisation or other relevant disciplines; and</li> <li>➤ at least 3 to 5 years of experience and knowledge in creative industries and digital marketing in particular across all spectrums.</li> </ul>

6. **Creative industries professionals in film**

Descriptions

**Positions in film production companies which are responsible for the following duties:**

- (i) being film producers to plan and coordinate film production such as selecting scripts, coordinating scriptwriting, directing and editing and arranging financing;
- (ii) being film directors to oversee a film's entire artistic production, and interpret and express the intentions of the screenwriter and producer set out in the screenplay;
- (iii) being screenplay writers to write screenplays for film production;

- (xiv) being visual effect supervisors to assess the parts of a film production that will need visual effects (VFX), ensuring the VFX shots are filmed correctly on set, and negotiating with the production crew the budget and the feasibility of the VFX works.

Vacancies to be filled must also require the following professional qualifications or requirements:

positions requiring candidates –

	<ul style="list-style-type: none"> <li>➤ being winners of renowned film festivals or film awards with examples at <b>Appendix</b>. Film producers of the “Best Film” awards in any of the renowned film festivals or film awards will be regarded as qualified candidates; or</li> <li>➤ engaging key roles in any film achieving a box office of at least HK\$30 million in Hong Kong.</li> </ul>
7.	<p><b><u>Performing arts professionals in arts technology</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in arts production companies which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ applying relevant technologies in artistic production such as extended reality (including virtual reality, augmented reality, mixed reality and substitutional reality); artificial intelligence (including machine learning, deep learning, natural language processing and data visualisation); sensors; holography; avatar and virtual presence; real-time motion capture and animation; and drones and robots.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ possessing expertise and proven track record in the application of relevant technologies such as extended reality (including virtual reality, augmented reality, mixed reality and substitutional reality); artificial intelligence (including machine learning, deep learning, natural language processing and data visualisation); sensors; holography; avatar and virtual presence; real-time motion capture and animation; and drones and robots in publicly presented artistic productions.</li> </ul>
8.	<p><b><u>Creative industries professionals in music</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in music companies which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) being recording engineers to record, edit and mix audio;</li> <li>(ii) being mastering engineers to fine tune recorded music; or</li> <li>(iii) being cutting/pressing engineers for vinyl LP to produce top quality records and Long Plate records.</li> </ul>

	<p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <ul style="list-style-type: none"> <li>➤ Recording engineers: positions requiring candidates who possess special skills to produce top quality records; having completed a specialised programme in a vocational school or a degree in audio engineering, sound engineering technology, etc; and a winner of Grammy Awards (Best Recording Engineer Awards), Beijing 北京十大錄音師大獎, Guangzhou 廣州華語金曲獎最佳錄音師獎, or any other renowned and industry-recognised music awards;</li> <li>➤ Mastering engineers: positions requiring candidates hold a degree in acoustic engineering, audio engineering or music production engineering, having in-depth understanding of the science behind and the artistic touch of sound; and Winner of Grammy Awards (Best Mastering Engineer Awards), or any other renowned and industry-recognised music awards;</li> <li>➤ Cutting/pressing engineers for vinyl LP: positions requiring candidates who possess special skills to produce top quality records and Long Plate records. Assessment is to be made based on a candidate's CV, profile and track record of producing famous records, and his/her scientific or professional experience in the communications field, including the design or marketing of audio mixing equipment or audio broadcast equipment. Have at least 10 years of active participation in broadcast engineering or its associated fields and have demonstrated sufficient technical proficiency.</li> </ul>
9.	<p><b><u>Creative industries professionals in digital entertainment</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in game development companies which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) being game development experts (game designers, game programmers, game graphic designers) to oversee a game's creation from concept and story-writing to coding and programming, with expertise in audio, design, production, game technology research and visual arts; or</li> <li>(ii) being game producers to set the direction of the game and define the strategy of the game; to assemble and manage a team of programmers, designers and artists; to outline, schedule and track tasks; to make sure the project is heading the right direction and to assure the quality of the game.</li> </ul>

	<p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <ul style="list-style-type: none"> <li>➤ Game development experts: positions requiring candidates possess 3 years of experience in game development; who have played the role of a game designer, game programmer or game graphic designer in the development of a successful game that had won any category of awards in one or more well-recognised Mainland or international awards, e.g. awards given by 中國音像與數字出版協會遊戲出版工作委員會, British Academy Games Awards, The Game Awards (U.S.A.), Game Developers Choice Awards (U.S.A.) and Game Star Award (Taiwan);</li> <li>➤ Game producers: positions requiring candidates possess 5 years of experience in game development and having played the role of a game producer of a successful game that had won any category of awards in one or more well-recognised Mainland or international awards, e.g. awards given by 中國音像與數字出版協會遊戲出版工作委員會, British Academy Games Awards, The Game Awards (U.S.A.), Game Developers Choice Awards (U.S.A.) and Game Star Award (Taiwan).</li> </ul>
<p><b>Industry Segment: Development and Construction</b></p>	
<p>10.</p>	<p><b><u>Architectural professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Architects and architectural assistants in development and construction related companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) planning, designing and supervising the construction of various types of buildings in compliance with Buildings Ordinance and regulations; or</li> <li>(ii) co-ordinating with relevant disciplines, various government departments, authorities and public utilities and following through different stages of building projects including preparation of feasibility studies of project briefs, sketch and detail design, tender drawings and documents, tender assessments, construction and contract administration, and post-construction matters.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p>

	<p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor's degree in architecture or other relevant programmes.</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure or maintenance works.</li> </ul>
11.	<p><b><u>Civil and structural engineering professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Engineers and assistant engineers in development and construction companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ planning, designing and supervising the construction of various types of engineering works, usually specialised in one or more of the following: (i) civil engineering; (ii) structural engineering; (iii) geotechnical engineering; (iv) hydraulic engineering; (v) highway engineering; (vi) material engineering; (vii) traffic and transportation engineering; (viii) railway engineering; (ix) environmental engineering; and (x) other civil engineering fields.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor's degree in building and civil/structural/geotechnical engineering or other relevant programmes.</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure or maintenance works.</li> </ul>
12.	<p><b><u>Building services engineering professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Engineers and assistant engineers in development and construction related companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p>

	<p>➤ planning, designing and supervising the construction of building services systems in building works including the installation, testing and commissioning, and maintenance and repair.</p> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <p>➤ at least a bachelor’s degree in building services engineering, electrical and mechanical engineering or other relevant programmes.</p> <p>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</p>
13.	<p><b><u>Electrical and mechanical engineering professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Engineers and assistant engineers in development and construction related companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p> <p>➤ planning, designing and supervising the construction of mechanical plants and electrical systems and equipment including their development, construction, manufacture, installation, operation, maintenance and repair.</p> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <p>➤ at least a bachelor’s degree in building services engineering, electrical and mechanical engineering or other relevant programmes.</p> <p>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</p>
14.	<p><b><u>Building surveying professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Surveyors and assistant surveyors in development and construction related companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p>

	<ul style="list-style-type: none"> <li>➤ advising the development potential of works projects with respect to technical and legal implications on relevant construction related ordinances, management and maintenance of buildings and associated post-construction related matters including fitting out, repair and alternation works.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in surveying or other relevant programmes.</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</li> </ul>
15.	<p><b><u>Quantity surveying professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Surveyors and assistant surveyors in development and construction related companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ providing expertise services on the following aspects of building and civil engineering design and construction administration: (i) project cost planning; (ii) pre-contract documentation including front part of tenders, bills of quantities and specifications; (iii) tendering procedures and assessment, contractual agreements and advice on selection of tenders; and (iv) post-contract services including measurement of works, preparation of interim and final payment certificates and settlement of other contractual claims.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in surveying or other relevant programmes.</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</li> </ul>

16.	<p><b><u>Land surveying professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Surveyors and assistant surveyors in development and construction related companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ providing expert survey services on the following aspects to facilitate land disposal, land registration, civil engineering works and different smart city applications: (i) performing physical measurement of land and sea by various survey technologies, (ii) collation of survey data in three dimensional space for the preparation of related plans and drawings, 2D/3D maps and/or spatial databases at different stages of land development and civil engineering works, (iii) preparation of design/as-built BIM models of infrastructures, (iv) integration of spatial and non-spatial information from relevant stakeholders in different industries to establish spatial databases, perform spatial database management and provide spatial data analysis solutions for different industry practitioners.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in surveying, geomatics or other relevant programmes.</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</li> </ul>
17.	<p><b><u>Landscape architectural professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Landscape architects and landscape architectural assistants in development and construction related companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) planning, designing and supervising the construction of landscape projects including soft and hard landscape works; or</li> <li>(ii) liaising with relevant authorities and government departments on</li> </ul>

	<p>landscape and trees related proposals, approvals and site works.</p> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in landscape architecture or other relevant programmes.</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</li> </ul>
18.	<p><b><u>Town planning professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Town planners and assistant town planners in development and construction related companies (including consultancy / contractor / developer / professional services / subcontractor / supplier firms) who are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) providing professional services to facilitate the relevant project proponents carrying out planning researches, studies, site searches and urban design works in regional or local context;</li> <li>(ii) preparing and submitting development proposals, planning applications and impact assessments;</li> <li>(iii) carrying out public engagement; or</li> <li>(iv) handling other town planning works, for the overall objective of providing a favourable physical environment in the urban and rural areas that could promote the health, safety, convenience and general welfare of the community.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in town planning or other relevant programmes.</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</li> </ul>

19.	<p><b><u>Construction manager / builder</u></b></p> <p><u>Descriptions</u></p> <p><b>Construction managers/builders and the related assistant professionals in development and construction companies or professional services/ consultancy firms which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) managing various processes of construction projects in accordance with the agreed method, procedures, budget and specifications, and the specified time frame in the contract;</li> <li>(ii) co-ordinating work of main contractor, sub-contractors, specialist contractors and suppliers;</li> <li>(iii) liaising with architects, engineers, surveyors, specialist consultants, contractors and government departments; or</li> <li>(iv) reviewing, inspecting, evaluating and reporting on the quality, progress and cost of works and adjusts schedule as necessary.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in architecture, building and civil engineering, building services engineering, electrical and mechanical engineering, surveying or other relevant programmes.</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</li> </ul>
20.	<p><b><u>Building information modelling (BIM) manager</u></b></p> <p><u>Descriptions</u></p> <p><b>BIM managers and the related assistant professionals in development and construction companies or professional services/ consultancy firms which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) managing BIM technology implementation including coordinating data-exchange activities, fulfilling pre-defined design specifications and delivery specifications, and overall BIM model quality control; or</li> <li>(ii) ensuring the adoption of BIM could facilitate the achievement of quality deliverables for construction projects.</li> </ul>

	<p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor's degree in architecture, building and civil engineering, building services engineering, electrical and mechanical engineering, surveying or other relevant programmes</li> <li>➤ at least 3 years of relevant working experience related to land use planning, design, construction, operation of buildings/facilities/infrastructure, or maintenance works.</li> </ul>
<b>Industry Segment: Environmental Technology Services</b>	
21.	<p><b><u>Experienced waste treatment specialists / engineers</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in waste treatment / environmental engineering companies or waste management specialist consultants which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) planning, building, operating, maintaining, implementing, and coordinating waste management systems, and large-scale recycling facilities for waste prevention, reuse, and recycling opportunities; or</li> <li>(ii) working in the fields of advanced thermal waste treatment process or advanced chemical/ physical/ biological waste treatment process.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ a relevant Master or Doctor of Philosophy (PhD) degree in the fields of advanced thermal waste treatment process or advanced chemical / physical / biological waste treatment process plus 5 years of relevant on-the-job experience; or</li> <li>➤ a relevant bachelor degree in the fields of advanced thermal waste treatment process or advanced chemical / physical / biological waste treatment process plus 8 years of relevant on-the-job experience.</li> </ul>
<b>Industry Segment: Financial Services</b>	
22.	<p><b><u>Experienced professionals in compliance in asset and wealth management</u></b></p>

	<p><u>Descriptions</u></p> <p><b>Positions in financial institutions, asset management companies (including family offices) or fund managers (including Mandatory Provident Fund (MPF) trustees) which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) compliance risk management;</li> <li>(ii) establishing, implementing, monitoring and reviewing compliance policies, procedures and standards to ensure the adherence of businesses to relevant regulatory requirements;</li> <li>(iii) handling requests from regulators; and</li> <li>(iv) providing compliance advice and training to management and operational departments.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ a relevant bachelor’s degree in commerce, finance, business administration, economics, accounting, law or other relevant programmes and received on-the-job training and industry courses and programmes; and</li> <li>➤ at least 3 years of relevant compliance experience in asset and wealth management firms or professional firms specialised in asset and wealth management; knowledge in finance and relevant rules, regulations and guidelines of regulatory authorities including those of Hong Kong; and relevant language skills.</li> </ul>
23.	<p><b><u>Experienced management professionals in asset and wealth management</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in financial institutions, asset management companies (including family offices) or fund managers which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) researching into a wide variety of investment opportunities, including exchange or over-the-counter traded investment products such as securities, derivatives (including those relating to commodities) and alternative investment;</li> <li>(ii) putting together investment portfolios tailored to the needs of the clients (including funds and family offices);</li> </ul>

	<p>(iii) supervising day-to-day administration of the investment portfolios for clients (including funds and family offices);</p> <p>(iv) selecting the investment products of the portfolios;</p> <p>(v) implementing the investment policy and distribution policy as stated in the contract;</p> <p>(vi) calculating the value of portfolios;</p> <p>(vii) promoting various fund portfolios to customers; or</p> <p>(viii) planning for succession and wealth transfers.</p> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ a relevant bachelor's degree in commerce, finance, business administration, economics, accounting, law and received on-the-job training and industry courses and programmes; and</li> <li>➤ at least 3 years of relevant experience in fund and wealth management industry; knowledge in finance and client servicing (if applicable) and language skills (e.g. English and/or Mandarin).</li> </ul>
24.	<p><b><u>Financial professionals in environmental, social and governance (ESG)</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in companies, financial institutions or professional services/ consultancy firms which are responsible for the following duties:</b></p> <p>(i) ESG (including green and sustainable finance) financing, investment, product development, disclosure/reporting, rating assessment, risk management;</p> <p>(ii) co-ordinating audit or review to ensure compliance with ESG disclosure/reporting requirements and standards; or</p> <p>(iii) conducting ESG research and analysis.</p> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor's degree in green and sustainable finance, environmental science / management, sustainability, commerce, finance, business administration, economics, accounting, law, environmental</li> </ul>

	<p>studies or other relevant disciplines and received on-the-job training or industry courses or programmes; and</p> <p>➤ experience and knowledge in ESG (including green and sustainable finance) financing, investment, product development, disclosure/reporting, rating assessment, risk management, regulation and compliance, research and analysis, practices especially in relation to climate change, integrating climate-related factors into risk and investment management, carbon footprint calculation, stakeholder management, or other related fields.</p>
25.	<p><b><u>Specialty insurance professionals</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in insurers, re-insurers, insurance brokers companies or professional services/ consultancy firms which are responsible for the following duties:</b></p> <p>(i) specialty insurance or reinsurance underwriting, claims, brokerage, loss adjusting, law, risk management and managing of specialty insurance business disciplines; or</p> <p>(ii) involving in the business segments of maritime, aviation, agriculture, construction and infrastructure, power and energy (including wind and solar), legal liability (including professional indemnity and directors' and officers' liability), financial lines, cyber risk, warranty and indemnity, tax, trade credit, structured solutions, political, war, alternative risk transfer programmes, global medical and employee benefit programmes, intellectual property risks, intangible assets (including green insurance such as carbon offset coverage), reinsurance of all classes both treaty and facultative or other professional services in the value chain of specialty insurance.</p> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <p>➤ typical qualification of not less than 3 years demonstrable international experiences in the particular specialisation including underwriting, claim handling, insurance broking or relevant supporting professional services sectors, such as risk modelling, laws, risk management and loss adjusting. An advantage if they have attained relevant professional qualifications such as the Chartered Insurance Institute, the Australian and New Zealand Institute of Insurance and Finance, or the equivalence of such qualifications.</p>

26.	<p><b><u>Actuaries</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in financial institutions, insurers, asset management companies, fund managers, or professional consultancy firms which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) insurance operation, including areas such as product development and pricing;</li> <li>(ii) asset/ liability management;</li> <li>(iii) data and predictive analytics;</li> <li>(iv) enterprise risk management; or</li> <li>(v) carrying out financial reporting, capital and actuarial valuation in a risk-based solvency regime environment.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ first degree in actuarial science, mathematics, statistics, economics, commerce or business administration; and at least 3 years of post-qualification experience in actuarial-related field.</li> </ul>
27.	<p><b><u>Professionals in Fintech</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in financial institutions, information and technology development firms which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>(i) applying cutting-edge technology to financial services and relevant research and development, including distributed ledger technologies, artificial intelligence, big data, blockchains and cybersecurity, etc. by performing system analysis, design, development, maintenance and enhancement; or</li> <li>(ii) monitoring the applications for complying with IT security standards and regulatory requirements.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p>

	<ul style="list-style-type: none"> <li>➤ a bachelor's or above degree in a relevant discipline, such as computer science, computer engineering, electronics engineering and information science;</li> <li>➤ experience preferably in the leading companies in the relevant field, such as artificial intelligence, advanced software skills (computer programming), big data analytics, blockchain applications and cybersecurity; and</li> <li>➤ knowledge of applying technology to provide solutions in financial services, and creativity.</li> </ul>
28.	<p><b><u>Accountants</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in financial institutions which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ conducting a broad range of tasks related to financial reporting, audit and assurance for compliance with statutory and regulatory requirements.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ a bachelor's or above degree in accounting, finance, business administration, economics or other relevant disciplines;</li> <li>➤ completed / exempted from the Associate Level modules under the Qualification Programme ("QP") of the Hong Kong Institute of Certified Public Accountants ("HKICPA"); or holds a qualification conferred by the HKICPA, Chinese Institution of Certified Public Accountants or an overseas accountancy body with which the HKICPA has entered into a reciprocal membership agreement; and</li> <li>➤ relevant practical experience in accounting and audit firms.</li> </ul>
29.	<p><b><u>Financial professionals with Islamic market experience</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in companies, financial institutions or professional services/ consultancy firms which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ providing professional service and expert advice pertaining to the offering of financial products and services to Islamic markets.</li> </ul>

	<p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in commerce, finance, business administration, economics, accounting, law, Islamic finance / Islamic economics or other relevant programmes, and received on-the-job training or industry courses or programmes; and</li> <li>➤ extensive experience in leading institutions offering financial services and products to Islamic markets.</li> </ul>
30.	<p><b><u>Experienced professionals in commodities trading</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in companies, financial institutions or professional services/ consultancy firms which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ setting commodities trading policies or strategies, manage relevant portfolios, and execute relevant transactions, including but not limited to developing relevant financial products; conducting relevant researches and analysis, setting relevant trading and hedging strategies, executing transactions, performing relevant risk management roles such as compliance, providing relevant support services such as trade financing and ESG performance evaluation etc.</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ at least a bachelor’s degree in commerce, business administration, economics, or other relevant disciplines and received on-the-job training in financial institutions or businesses engaging in commodities trading; and</li> <li>➤ at least 5 years of relevant working experience in commodities or relevant derivatives trading.</li> </ul>
<b>Industry Segment: Healthcare Services</b>	
31.	<b><u>Doctors</u></b>

	<p><u>Descriptions</u></p> <p><b>Positions in hospitals, day procedure centres, clinics, district health centres, government, universities/tertiary institutes, or companies/organisations providing healthcare services (including laboratories and imaging centres) which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ providing health/healthcare-related services, teaching and research activities which are required to be carried out by medical practitioners registered in Hong Kong under Medical Registration Ordinance (Cap. 161).</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ registered as a medical practitioner under Medical Registration Ordinance (Cap. 161).</li> </ul>
32.	<p><b><u>Dentists</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in hospitals, day procedure centres, clinics, district health centres, government, universities/tertiary institutes, or companies/organisations providing healthcare services (including laboratories and imaging centres) which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ providing health/healthcare-related services, teaching and research activities which are required to be carried out by dentists registered in Hong Kong under Dentists Registration Ordinance (Cap. 156).</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ registered as a dentist under Dentists Registration Ordinance (Cap. 156).</li> </ul>
33.	<p><b><u>Dental Hygienists</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in hospitals, day procedure centres, clinics, district health centres, government, universities/tertiary institutes, or</b></p>

	<p><b>companies/organisations providing healthcare services (including laboratories and imaging centres) which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ providing health/healthcare-related services, teaching and research activities which are required to be carried out by dental hygienists enrolled in Hong Kong under Dentists Registration Ordinance (Cap. 156).</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ enrolled as a dental hygienist under Dentists Registration Ordinance (Cap. 156).</li> </ul>
34.	<p><b><u>Nurses</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in hospitals, day procedure centres, clinics, district health centres, government, universities/tertiary institutes, or companies/organisations providing healthcare services (including laboratories and imaging centres) which are responsible for the following duties:</b></p> <ul style="list-style-type: none"> <li>➤ providing health/healthcare-related services, teaching and research activities which are required to be carried out by nurses registered/enrolled in Hong Kong under Nurses Registration Ordinance (Cap. 164).</li> </ul> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <ul style="list-style-type: none"> <li>➤ registered/enrolled as a registered nurse / enrolled nurse under Nurses Registration Ordinance (Cap. 164).</li> </ul>
35.	<p><b><u>Midwives</u></b></p> <p><u>Descriptions</u></p> <p><b>Positions in hospitals, day procedure centres, clinics, district health centres, government, universities/tertiary institutes, or companies/organisations providing healthcare services which are responsible for the following duties:</b></p>

	<p>➤ providing health/healthcare-related services, teaching and research activities which are required to be carried out by midwives registered in Hong Kong under Midwives Registration Ordinance (Cap. 162).</p> <p><u>Vacancies to be filled must also require the following professional qualifications or requirements:</u></p> <p>positions requiring candidates –</p> <p>➤ registered as a midwife under Midwives Registration Ordinance (Cap. 162).</p>
